The Newsletter of GBRW Expert Witness

GBRW Intrabank joins forces with Associated Insurance Experts

I am delighted to announce that GBRW Intrabank has reached agreement with Associated

Insurance Experts to combine our expert witness practices from 1st January 2009. GBRW has been providing expert witnesses for financial sector litigation since the mid-1990s. We

acquired the expert business of Intrabank

Expert Witness in the summer of 2007 and the merged business now operates as GBRW Intrabank. Associated Insurance Experts has

been active for even longer (see below). We believe that the combination of AIE's experience in insurance and reinsurance and GBRW Intrabank's banking and investment expertise gives us the chance

to build a unique business in a very specialised and demanding field. Our base in the City positions us at the heart of the financial and insurance markets and current economic conditions are likely to continue to provide increased demand for our services.

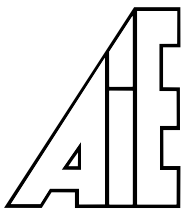

We welcome enquiries for expert advice in our areas of specialisation (see our contact details on left)

and look forward to keeping you updated on the development of our activities over the course of 2009.

We welcome enquiries for expert advice in our areas of specialisation

Paul Rex
Managing Director
GBRW Intrabank

About Associated Insurance Experts

Associated Insurance Experts (AIE) was founded in 1990 by the late Dr Gordon Shaw. Since then it has formed a unique group of insurance experts offering their services to instructing solicitors. AIE currently consists of four principals, each of whom has extensive experience in providing expert advice, written expert reports and giving evidence in the Courts. In addition, the group has four consultant members, who are all past

principals, and some forty associates. Cases taken on involve claimants, defendants, insurers, intermediaries and insureds. Over the years AIE has gained considerable respect from instructing solicitors and their clients. There is virtually no class or aspect of insurance which cannot be covered. In the past, cases have involved anything from a few hundred pounds to several millions. AIE's experts have acted as single and as joint experts and some of them also provide mediation and arbitration services. For further background on AIE, see www.insurance-experts.net.
